

## CLAIMS

1. A composite cured silicone powder comprising:  
cured silicone powder (A) that has an average particle size of 0.1 to 500 micrometers;  
an inorganic fine powder (B) coated on the surface of said cured silicone powder (A);  
5 and a surface-active agent (C) coated on the surface of said inorganic fine powder (B).
2. The composite cured silicone powder of Claim 1, wherein said cured silicone powder (A), said inorganic fine powder (B), and said surface-active agent (C) are mixed under conditions of mechanical shearing.  
10
3. The composite cured silicone powder according to Claim 1 or Claim 2, wherein inorganic fine powder (B) is a fine powder of a metal oxide.
4. The composite cured silicone powder according to any of Claim 1 or Claim 2, wherein  
15 the specific surface area of said inorganic fine powder (B) is not less than 10 m<sup>2</sup>/g.
5. The composite cured silicone powder according to any of Claim 1 or Claim 2, wherein said inorganic fine powder (B) is silica.
- 20 6. The composite cured silicone powder according to any of Claim 1 or Claim 2, wherein said cured silicone powder (A) is a silicone rubber powder.
7. A method for producing a composite cured silicone powder comprising the step of mixing the following components under conditions of mechanical shearing: a cured  
25 silicone powder (A) that has an average particle size of 0.1 to 500 micrometers, an inorganic fine powder (B), and a surface-active agent (C).
8. The method of manufacturing a composite cured silicone powder according to Claim 7, wherein said cured silicone powder (A) and said inorganic fine powder (B) are mixed  
30 with mechanical shearing, and then are mixed with said surface-active agent (C) also by applying mechanical shearing.

9. An aqueous composition comprising composite cured silicone powder according to any of Claim 1 or Claim 2.
- 5 10. An aqueous composition comprising composite cured silicone powder according to Claim 4.
11. An aqueous composition comprising composite cured silicone powder according to Claim 5.
- 10 12. An aqueous composition comprising composite cured silicone powder according to Claim 6.
